

Renewing your vitality since 2003

Gaines Enhancement[®]

The [Gaines Enhancement[®]](#) is a natural method for increasing male enhancement without the need for drugs or invasive surgeries.

Expected benefits from the **Gaines Enhancement** procedure include:

- ◆ Better quality erection
- ◆ Heightened pleasure and sensation
- ◆ Healthier organ due to increased circulation
- ◆ Natural alternative to prescription medications or surgery

Most patients receiving the **Gaines Enhancement** experience an increase of between 10 and 20 percent in both penis length and girth, providing increased confidence and a more enhanced, satisfied sexual experience.

The procedure for the **Gaines Enhancement** begins with PRP, which is Platelet-Rich Plasma.

PRP provides the body's own growth factors that work to increase blood flow into the penis resulting in stronger, harder, and bigger erections.

- ◆ The procedure is carried out in less than 15 minutes
- ◆ Practically no discomfort or pain
- ◆ Little or no downtime
